RE: Barton Malow Headquarters Building

Dear Rich,

It is with great pleasure I write this letter. It is not every day we build a corporate headquarters for ourselves. Booms Stone provided a vital role in our project's construction. It is only through good planning, teamwork, and execution that this is possible. My hat is off to you and your team for a job well done.

We are proud of our building. It is a reflection of both who we are and what we do. I want to welcome you to use Barton Malow as a reference, and our building as an example of the quality of work that Booms Stone performs.

My thanks, again, for a job well done.

Sincerely,  
Barton Malow Company
